Room-by-room cleaning checklist

Every clean side by side. This is the same list your cleaner ticks off in our app, room by room, with before and after photos. Task counts are for a one-bedroom, one-bathroom home; every extra room gets its own full list.

Standard / Recurring clean

Upkeep for a home that's cleaned regularly. Every room on the same list each visit: kitchen, bathrooms, bedrooms, living areas and hallways.

64 tasks

Deep clean (recommended first clean)

Everything in a Standard clean, plus the detail work: baseboards, light fixtures, fans and vents, doors and frames, light switches, window frames, blinds, grout and cabinet fronts. The one we recommend for a first clean, and every repeat plan starts with one.

104 tasks

Move-in / move-out clean

A Deep clean for an empty home, so every surface is reachable. Inside the cabinets, drawers, fridge and oven are add-ons, and we'll ask you about them.

96 tasks

Vacation rental clean

A Standard clean plus the guest turnover: fresh linens and towels, restocking from your supplies, and a photo of anything damaged or left behind.

73 tasks

Post-construction clean

A Deep clean plus the construction cleanup: fine dust off every surface, stickers and adhesive, inside the cabinets and closets, sills and tracks.
